## Erratum

An incorrect image was published as Fig. 6. The correct image is provided below.

**Fig. 6.** Histogram of likelihood-ratio results from the Monte Carlo simulation using Hotelling's  $T^2$  models. The vertical lines represent, from right to left, the likelihood ratio calculated using the original data ( $1 \times 10^{10}$ ), the 5th percentile ( $9 \times 10^8$ ), and the 1st percentile ( $2 \times 10^8$ ).
